1. The Electromotor Factory at Timisoara is located at Vacarescu and Republici Streets in Timisoara. There is a railroad spur line and a railroad turntable which services this factory. There are two buildings; the Old Factory is a four-story brick building measuring about 12 by 35 meters in which there are about 300 workmen employed. The New Factory is described below.
2. There is an administration office in a two-story brick building measuring 10 by 35 meters and a technical office in a single story brick building measuring 10 by 20 meters in size. A storage area is located in a single story brick building 20 by 40 meters in size.
3. The New Factory building (see attached sketch) was erected between March and November 1947, on the instructions of the Ministry of Reconstruction. The work was carried out by the Timisoara section of No. 2 Sub-Directorate Arad of the Sovromconstructii Service, at an expense ranging between 15,000,000 and 18,000,000 lei.
4. It was a reinforced concrete building covering an expanse of 4,000 square meters and measuring approximately 50 by 80 meters.
5. It was to be used for the repair and construction of electric motors and turbines.
